

Turnkey Self-Service Kiosk for Pantry & Retail

Purpose-Built for Pantry Operations

After extensive evaluation and real-world operational testing, our countertop kiosk design delivers the ideal solution for pantry environments.

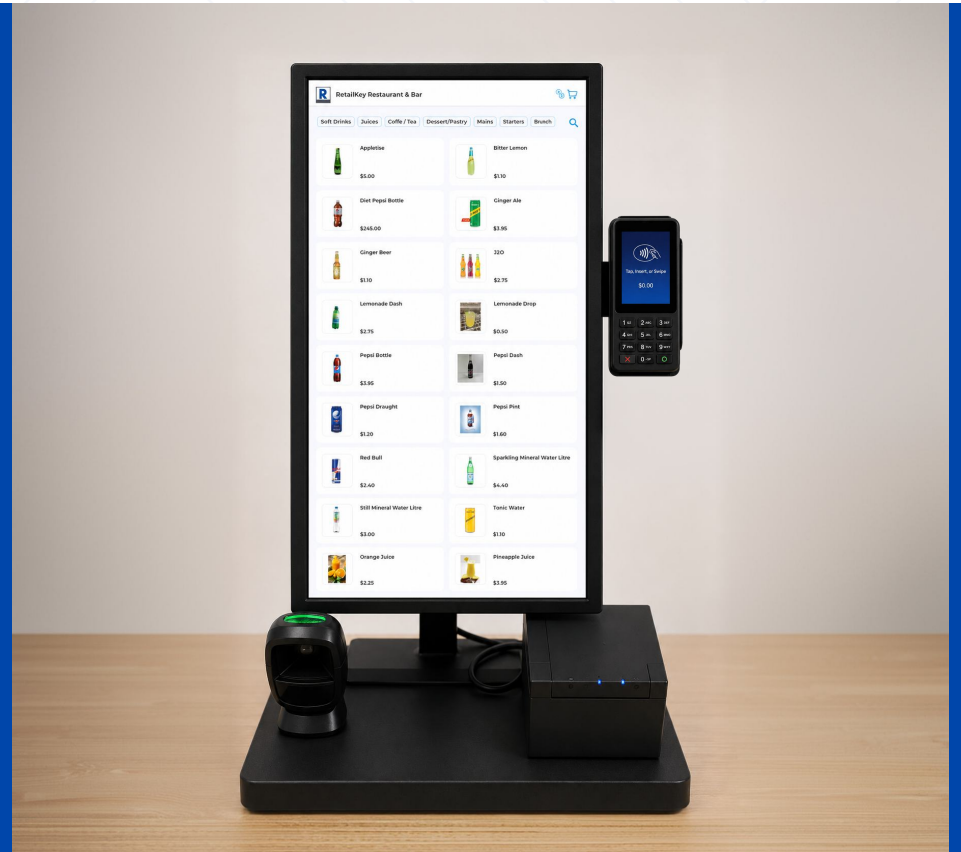

Compact footprint

Streamlined guest interaction

Faster deployment

Operational efficiency

Minimal infrastructure impact

Fully Integrated with HotelKey PMS

Our solution is fully vetted through extensive end-to-end operational testing, including:

- Charge-to-room transactions posted to PMS
- Unlimited itemizers (Food, Beverage, Retail, Alcohol, Tips, Discounts, Spa)
- Revenue and All Payment types posted in PMS
- Full workflow and usability validation

This gives us strong confidence in the platform's stability, reliability, and readiness for live property deployment.

Sleek. Secure. Modern.

Every kiosk is engineered with aesthetics and durability in mind.

Premium Integrated Design Features:

- Barcode scanner permanently fixed to the kiosk base
- Receipt printer securely integrated into the base
- All cables are fully concealed internally
- No exposed or hanging wires

The result is a polished, professional, guest-facing solution designed to complement modern hospitality environments.

Included with Every Kiosk

21.7" Interactive Touchscreen Monitor

Modern, responsive touchscreen optimized for intuitive guest self-service.

Integrated Smart Kiosk Base with IoT Capability

Secure, connected platform engineered for scalability, reliability & future growth.

Epson M30II Receipt Printer

Fast, quiet, reliable receipt printing for smooth guest transactions.

Zebra 2D Barcode Scanner

Enterprise-grade scanner supporting QR codes & standard barcode formats.

Setup & Configuration

Delivered fully configured & deployment-ready for simplified installation.

Simple Turnkey Deployment

Each kiosk is shipped directly to the property as a complete, packaged solution, minimizing installation complexity and reducing on-site operational burden.

Property Responsibility

Note: You will need to procure credit card terminals from your payment provider.

Why This Solution Stands Out

Enterprise-Level Performance at a Lower Cost

Our kiosk delivers:

Enterprise-grade hardware

Sleek, all-in-one component design

Clean, modern, industrial design

Proven operational workflows

Lower total deployment cost

Ready for Scale

Following successful initial testing, we are seeing steady traction and a growing number of inbound requests for this solution.

With deployment readiness established, this platform is positioned to help properties:

Modernize pantry operations

Improve guest convenience

Reduce labor dependency

Increase operational efficiency

Create scalable self-service experiences

Accelerate return on investment

Smarter Operations. Better Guest Experience. Lower Cost.

The Future of Pantry Self-Service is Here.
